VOL. XIII.

RENO, WASHOE COUNTY, NEVADA, FRIDAY, JUNE 23, 1882.

NO. 72.

LOCALS.

Rescued From Death.
William J. Conigliano, of Somerville, Mass., says: In the fall of 1876 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The physician said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I have no home, but a friend told me of DR. WILLIAM HALL'S BALM, FOR THE LUNGS. I got a bottle, when I arrived, I took it to the doctor, and to-day I am stronger than for three years past. I write this hoping some one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALM, and be cured. I am confident DR. HALL'S BALM CAN CURE. I can positively say it has done more good than all the other medicines I have taken since my sickness.

Something New.
In transit from New York, an immense variety of Spring fabrics in all the new designs for 1882. My importation of English, Scotch and French materials includes the most elaborate pieces of the foreign mills, and every kind of domestic casement is full and varied. No California or Oregon goods in stock. Suite, new woolen goods, at \$25 and upwards. Pantaloons, new woolen goods, at \$25 and upwards. My coat is not "British," but "American," and has a double lining. It is a good coat, and will be spared to please you. A complete suit guaranteed. F. KOSTER,
Leading Tailor in Reno

Notices to the Public.
The citizens of Reno are hereby notified that I will, with the help of my friends, carry on the business in the hardware known as "Jake Graff's" bakery, as heretofore, and respectfully ask the patronage of all our old friends for the support of said family. Contrary reports notwithstanding, Eddie Graff will give bread and rolls to customers with well-known civility and dispatch.

120-121 Mrs. MAGDALENA GRAFF.

John Wau, exhibited in eight of the largest Japanese art exhibition in the world. Shattuck & Fletcher export their printing ink to Japan, receive Japanese robes in return, pay for this advertisement with printing ink, and this is why I can exhibit my pictures. Logical, isn't it? Books and records. Goods for every branch of country and retail trade.

May 25th

Grateful to Invalids.
Floreston Colono is grateful to invalids, because it is refreshing without the sickening effect of most perfumes.

The Highest Rank.
Made from harmless materials, and adapted to the needs of fading and falling hair. Parker's Hair Balsam has taken the highest rank as an elegant and reliable hair restorative. 163 Main Street.

Heartily Recommended.
Don't condemn a good thing because you have been deceived by worthless nostrums. Parker's Ginger Tonic has cured many in this section of kidney and nervous disorders, and we recommend it heartily to such sufferers.

News.—
Horsford's Acid Phosphate in Liver and Kidney Troubles.

Dr. O. G. Cilley, Boston, says: "I have used it very extensively, and with the most remarkable success in dyspepsia and in all cases where there is derangement of the liver and kidneys."

John F. Myers' Drug Store has removed to Virginia street, next to Barnett's.

For Cheap Drugs, Patent Articles, Patent Medicines, Perfumery, etc., call at Jno. F. Myers' Drug Store, Virginia street, next to Barnett's.

The finest brand of Kelly's celebrated Key West cigars are to be had at John F. Myers' Drug Store on Virginia street, next to Barnett's.

Drugs and Patent Medicines.
Of every description sold cheap by John F. Myers, Virginia street, next to Barnett's.

Wistar's Balsam of Wild Cherry cures coughs, colds, bronchitis, whooping cough, croup, indigestion, consumption, and all diseases of the throat, lungs, and chest. 50 cents and \$1 a bottle. 1000-odd boxes.

No well stocked private wine cellar without the celebrated Eclipse champagne.

TUTT'S PILLS

INDORSED BY PHYSICIANS, CLERGYMEN, AND THE AFFLICTED EVERYWHERE.

THE GREATEST MEDICAL TRIUMPH OF THE AGE.

SYMPOMS OF A TORPID LIVER.

May 25th

COAST CLIPPINGS.

William Rice was instantly killed near Placerville Wednesday by a falling tree.

Frankie Bassett, a woman well known in Eastern Nevada, died at Ward a few days ago of dropsy.

The Dalles papers say that 620 immigrants from Norway are expected to arrive there before July next.

Jackson county, Oregon, claims to be the banner Democratic county, giving 300 majority for that ticket.

McNamara, who was injured in a railroad accident near Glenwood Tuesday, died Wednesday at Santa Cruz.

James K. Brown, living in Jackson county, Oregon, committed suicide on account of morose and "hired" disposition.

Watts, the brutal mate of the Gatherer, has been arrested at Cork, and in all probability will soon be in San Quentin.

The variety merchants are laying in a supply of fire crackers and fire works for the benefit of the youngsters on the Fourth of July.

At the Derby drift mine, North Bloomfield, \$335 in coarse gold was cleaned up from a pan and a half of gravel one day last week.

Johnny Corlett, a boy eight years old, in attempting to leap from the wharf at Napa to a boat lying alongside the wharf, fell into the water and was drowned.

Wm. M. Scott, who was one of the winners of \$150,000 in the noted Newberry poker game last year, has put \$40,000 in lands near Orange, Los Angeles county.

At Bakersfield John Cain, a herder, was attacked by a wild boar in the tules, and was so horribly mangled that he died in twenty minutes. He leaves a wife and eleven children.

Tuesday evening, at Los Angeles, Nathan Clark, while climbing a tree, was precipitated head foremost to the ground by the breaking of a limb, and died of concussion of the brain.

At Merced Wednesday a whirlwind carried away the roof of a building in the rear of Isaac's planing-mills. The roof was moved thirty feet, and in falling severely injured F. Easterbrook, foreman at the mills.

The Nevada City Trustees recently increased the license on laundries from \$10 to \$30 per quarter. The proprietors of eight Chinese wash houses have given notice that they will close out their business on the 1st of July. An effort is being made to have a white laundry started.

Wednesday morning, in San Jose, C. W. Gearhart, of the firm of Gearhart & Girvin, short-hand reporters of San Francisco, was knocked down, beaten about the head and face and robbed of about \$40 in coin, gold watch and chain, finger-ring, and other jewelry.

"I was attacked with muscular rheumatism in my limbs on a late view to Boston," says Mr. B. B. Hardwick, 350 Washington street, New York. "Three bottles of St. Jacobs Oil cured me completely."

FRIDAY JUNE 23, 1882

THE DEMOCRATIC TOM-TOM.

A witty Frenchman has said, "You can do everything with a bayonet but sit down upon it." So of the platform of the California Democracy; you may do anything with it but sit upon it—that is, apply it practically. It is evidently the work of a juggler. The difference between the two great parties is not marked by any distinct and paramount issue, by any large and well-defined policy; but is simply a grouping of the odds and ends of piddling devices and the tag-rag of petty prejudices, such as usually set contentious old women, both sexes, by the ears. California is decidedly a unit upon the Chinese question; and the Sunday law fairly represents the conservative religious sentiment of both Democrats and Republicans. It is not in any just sense a party issue. And as for the remainder of the Democratic joinder, it represents nothing but the usual gong-beating and tom-tom of the "grand old party." Altogether the tone of the platform is quirkish and vague.

EDITORIAL NOTES.

Almarin B. Paul, well known in Nevada, recently came out in an article claiming that he knew of gold in California prior to the discovery at Sutter's mill, and that one Captain Cleme gave him the information, the Captain, a Brazilian miner, having seen gold brought to Brazil by native Californians from upper California. Now let the GAZETTE man say something: The island of Madagascar will be the world's next big bonanza. The whole island is but an upheaval of gold-bearing quartz. There is but one vein, and it covers the whole country.

It is more than likely that Allen A. Curtis of Lander county will conclude to take a hand in the Gubernatorial game. If Mr. Curtis consents to allow his name to be presented to the Republican convention he will be a hard man to beat for the nomination. He is so well and favorably known all over the State that his name would be a power, and if nominated he would carry the State by a handsome majority.

A new kind of sicken's question has been developed in Montana. Lumbermen claim the right to use Warm Springs Creek to float down logs. To this riparian owners and others object. The lumbermen claim that all streams capable of floating logs are navigable streams, and hence under the Act of 1811 are public highways and therefore may be used for transportation of logs, etc.

The Democrats of California have done well in nominating General Stoneman for Governor. The Republicans will find him the sturdiest opponent they ever struggled with, and it behoves them to be up and doing, for Stoneman's war record shows that his motto was, "Go in and win."

There is a fine prospect for a monkey and parrot party at the Democratic convention at San Jose. Let the band play. It is a Democratic fight and the Republicans can stand at a distance and laugh to see the fur and feathers fly.

It is pleasing to note that the opposition to Axtell's appointment as Chief Justice of New Mexico is being taken cognizance of by the Senate. He is totally unfit for the position. In and out of Congress his record is very bad.

The Record Union is crawling to the top of the heap, and is now among the best of daily newspapers. Its reports of the proceedings of the Democratic Convention at San Jose are far ahead of those of all contemporaries.

If the President would swap some of his check for backbone he might be better able to stand the onslaughts of Massachusetts fanatics who are pestering him about reprieving Guiteau.

Guiteau is softly humming to himself, "Up the gallows, down the rope, there I'll hang until I choke."

There are too many Boston humanitarians in this country.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

A Hard Country.

DES MOINES, Ia., June 23:

Another terrible rain and wind storm passed over Iowa this afternoon. The recently desolated town of Malcom, Poweshiek county, was exposed, through damaged and roofless buildings, for three hours to the pitiless storm, damaging goods rescued from Saturday's storm to an enormous amount. At Pleasantville, Marion county, the residence of P. Lyon was badly twisted. The props placed against it on each side were driven through the wall. It is thought the damage north and east of here is more severe.

DUBUQUE, Ia., June 23:

Word is received from Independence, through passengers on the train, that great damage has been done to buildings. Nearly all business houses are unroofed, and the wires all down. The depot of the Burlington & Cedar Rapids railroad is a wreck. The blow came before the circus performance began, so there was no loss of life. Many horses were killed by flying timbers, beside two men, name unknown.

The Freight-Handlers' Strike.

JERSEY CITY, June 23:

The strike of longshoremen and freight-handlers continues. A gang of drunken ruffians attempted to prevent a number of new hands from unloading a barge of sugar, but the police scattered them.

NEW YORK, June 23:

The striking freight-handlers hold a large meeting to-night. The ranks of the strikers were largely reinforced to-day. The men will parade to-morrow, and they say 5,000 will be in line. An address has been issued by merchants to the railroad managers, calling attention to the injury to the trade of the city by the controversy.

A Slap at Modern Democracy.

NY, June 23:

A Herald editorial says: There is at least one State in the Union where Democrats have got something to hold on to. That State is California. There they have fastened themselves to the pigtail of the Chinese, which they expect will drag them into power. The Democrats, curious to say, are always in somebody's wool. They had their hands in the kinky curls of the poor negro for a quarter of a century until they were finally compelled to let go. They will fare no better with Chinamen, and modern Democracy is unhappy unless it is on the back of a supposed inferior race, which in the end always contrives to get on top.

Opposition to Axtell.

WASHINGTON, June 23:

The nomination of Axtell for Chief Justice of New Mexico has met with opposition in the Senate. This man's record ought to be sufficient to cause his rejection. Senators have been informed that the nomination has aroused the opposition of the best citizens of the Territory, who had breathed a sigh of relief when Prince resigned, but they now look with apprehension on the nomination of a man whom they believe to be more unfit for the place than Prince was.

Appointments.

WASHINGTON, June 23:

The nominations of John S. Downer of Colorado as master of the mint at Denver, Gustave Achirizer of Wyoming, U. S. Marshal of Wyoming, have been made. Colonel David Houston of the Fifth Infantry has been placed on the retired list. General Sherman contemplates a general court martial for three or four army officers.

The Reprieve Delegation.

WASHINGTON, June 23:

In bidding good-bye to the delegation that called upon him with a petition for the reprieve of Guiteau, the President said he appreciated the motives of the movers in this matter, and that they deserved high praise for their efforts, whether he could coincide with their views or not.

Double Murder and Suicide.

HAMILTON, Ont., June 22:

G. Oleston, caretaker at the Central School, and his housekeeper, Mrs. Forbes, were shot yesterday by the latter's husband, from whom she had been separated for six years. Forbes then shot himself. All three are dead. Forbes had recently returned here.

Italian Bandit Rioters.

ALBANY, N. Y., June 23:

This afternoon Italian laborers went on a strike, led by a man said to be a bandit in Italy. The men engaged in a riot and tried to throw a train off the track, and defied the Sheriff and posse. The assistance of the militia is asked for.

At Loggerheads.

ST. CLAIRSVILLE, Ohio, June 23:

This is the second day's session of the 17th District Republican Congressional Convention. Nearly 400 ballots have been cast without result thus far in either session.

A Heavy Embroider.

ST. LOUIS, June 23:

Obey Owen, Receiving Teller of the Third National Bank of this city, was

arrested to-day, charged with embezzling \$150,000 of the funds of the bank. Very little is known of the affair at this writing; but it is said Owen's operations have extended over a period of several years and have been very carefully concealed.

A Quartet of Corpses.

DALLAS, Texas, June 23:

News was received here yesterday morning that the dead bodies of four men were found between Louisville and Pilot Point, two hanging by the neck and the other two with bullet-holes in them. They are not identified, but supposed to be those of horse or cattle thieves.

Davitt and the Land League.

NEW YORK, June 23:

Davitt will be in Chicago on Saturday. While there he will confer with a committee of seven appointed at the Land League Convention of that city, in regard to future action of the Land League in America.

A Tough Silenced.

GALVESTON, June 23:

A Loredo special says that Califormia Jim, who murdered the City Marshal, was killed by citizens in pursuit.

Mrs. Scoville Unsuccessful.

CLEVELAND, June 23:

Mrs. Scoville, failing to get an interview with Mrs. Garfield, has left the city without telling her business.

FOREIGN.

The Egyptian Muddle.

LONDON, June 23:

Official correspondence relative to the Egyptian question is published. It shows that Bismarck is favorable to intervention by the Sultan as Sovereign of Egypt, but would not oppose any other proposals sanctioned by concert of the powers. On the 22d of February De Freycinet expressed to the British ambassador at Paris strong objections to any intervention by the Porte, considering the object of the powers to be to render forcible intervention unnecessary. The correspondence shows that France first proposed sending iron-clads to Egypt.

An Alexandria correspondent telegraphs that he is informed on the best authority that if France and England interfere actively in Egyptian affairs Arabi Pasha will blow up the Suez Canal, cut the railways to Cairo and oppose the landing of European troops in Alexandria. If beaten, he will retire to the desert, where he is promised the support of 30,000 Bedouins. Partisans of Prince Hali, the Egyptian Minister, are prepared to sanction the above on patriotic grounds.

MARSEILLES, June 23:

Five more iron clads are ordered to be in readiness for service. Thirteen hundred marines have been sent to Toulon.

ALEXANDRIA, June 23:

Dervish Pasha has a telegram from the Sultan instructing him to use his efforts to induce Arabi Pasha to proceed to Constantinople before the first sitting of the conference and stating that the Sultan is satisfied with the attitude of Arabi Pasha. It is believed Arabi will decline to go to Constantinople. The Sultan has also telegraphed the Khedive expressing satisfaction at his course and promising to use every means to strengthen his authority.

VIENNA, June 23:

In view of the precedent of the fruitless conference in regard to the affairs of Greece, the Vienna press says Germany, Austria and Italy have decided to take part in the conference at Constantinople without the participation and against the will of Turkey. This confidence is based upon the idea that its decisions will be refuted by the Sultan, and the concurrence of Turkey is therefore indispensable.

In Favor of Chinamen.

TORONTO, June 23:

At the Methodist conference held here Rev. John Crosby, from British Columbia, spoke pronouncedly in favor of the employment of Chinese in the work of constructing the Pacific railway, and denounced in strong terms the policy of those who advocated their exclusion from Canada. The great national highway, he pointed out, should be constructed with all possible speed. The people of British Columbia were vitally interested in it, and any needless delay on the part of the Dominion Government would be vigorously resented by them. In the absence of sufficient white labor, there was nothing for it but to secure that of some other race, in order to have the work of construction pushed rapidly forward. The Chinese were precisely the class of people for this undertaking, being steady, industrious, reasonable in their demand for wages. He felt no apprehension that their engagement would bring evil results. They would not remain in the country to be in competition with native labor, but after saving up money would return to their own country.

The Hail of a Religious Beast.

HAVANA, June 23:

The police have arrested Canon Leon Bernard, a Belgian, who defrauded various Belgian religious societies to the amount of 6,000,000 francs. An examination of Bernard's trunks and a number of pocket-books revealed bills of exchange on Paris and United States coin and bank notes, amounting in value to 1,500,000 francs.

At Loggerheads.

ST. CLAIRSVILLE, Ohio, June 23:

This is the second day's session of the 17th District Republican Congressional Convention. Nearly 400 ballots have been cast without result thus far in either session.

A Heavy Embroider.

Obey Owen, Receiving Teller of the Third National Bank of this city, was

EASTERN TELEGRAMS.

DESTRUCTIVE FIRE AT VERDI.
LONKEY & SMITH'S MILL AND LUMBER
YARD DESTROYED—LOSS \$60,000—IN-
SURANCE \$8,000.
Special to the EVENING GAZETTE.]

VERDI, June 23:

Fire was discovered here yesterday

morning in the boiler and engine-room.

In a few minutes the whole building was a sheet of flames.

The planing-mill, dry-house,

part of the lumber-yard, and two

small dwelling-houses were destroyed;

also four railway cars loaded with wood

and lumber and about 200 feet of side

track. Families had only time to get

out with their clothes on. Lonkey &

Smith's loss is about \$60,000, insured

for \$8,000. The fire trains were here

from Truckee and Reno. The books

were in the safe and are supposed to

have been preserved.

The factory was carried on on a very

extensive scale and gave employment to

a large number of men. The com-

pany were doing a large business in

the door, sash, blind and box line,

and the destruction of this property by

fire is a great loss to this county.

Mrs. Lonkey and Smith are full of

pluck and go-aheadiness, and will

most likely rebuild at once.

HOW TO GET LAND.

"Uncle Sam is Rich Enough to Give Us All a Farm."

Under the timber culture act an applicant is entitled to 160 acres on any section naturally devoid of timber; the whole section must be devoid of timber. On one section, only one timber claim can be taken. It requires eight years to acquire a title. Actual residence is not required. The first year five acres must be broken. Second year he must cultivate this and five more. Third year he must plant the five acres in trees and cultivate the second five acres. Fourth year plant the second five acres in trees, which makes the ten acres. On the day of final proof 675 trees must be living and in a thrifty condition on each acre. This will require the trees to be eight feet apart. No particular variety of trees is required, only it is necessary that the trees shall be what are known as timber trees instead of those that are in the nature of evergreen shrubs, like the sumac tree. The ash, elm, maple, tulip, cotton-wood, pine, fir, eucalyptus, redwood, linden, birch, walnut, butternut, are all valuable trees and will fill all the requirements of the government.

THE COMSTOCK.

A Man who Believes that a Silver-Bearing Vein can Never Pinch Out.

"Well, I rather guess the Comstock's played out for good," was what a wise man said the other night on board a hither-bound C. P. car. And the remark seemed to voice the sentiment of the talkers until one who had been listening to the general creaking ventured with apparent diffidence to remark that the time had hardly come yet to write Ichabod on the once prolific Mount Davidson. "It's true," said he, "Virginia City is as dull as the tomb, but the old camp is not dead. I know something about the history of silver mining, and the supposition that the Comstock is played out—that all its ore-bodies have been discovered and worked out—reversed all the teachings of mining history. It is conceded that the great fissure is intact at its greatest depth; that it retains all the normal conditions of an ore-bearing lode. Now, I believe that ore-bodies occur below just as they occurred above, and that these bodies are likely to be disclosed any day—and don't you forget it, either, boys. Played out! Why, the Comstock will be raising the same old devil when we're all forgotten!"

A Flood in Plumas.

The Greenville Bulletin says residents in the vicinity of Richmond, near Susanville, were visited with a cloud-burst on Monday, a week ago, that came near demolishing everything in range of it. The meadow of John Hulman was covered with water to the depth of a foot or more, and the sand washed down has ruined a good portion of the hay land. At David Titherington's place the water in his garden was two feet deep, and at Charles Moor's place, near Johnstonville, the water entirely covered his grain. The creek was full to overflowing, and the ditches leading from it were entirely filled with sand. At J. W. Hoselk's place the experience was about the same. Considerable damage was done to all the ranches in the vicinity.

Prospects in Sierra Valley.

The people of Sierra Valley think the future not quite so discouraging as it was a week or two ago. Most of the hoppers hatched out on the island and in Adams' Neck, and owing to the lateness of their appearance and the further fact that grass on those parts of the valley is unusually good, the people in the other parts think that the pests will not migrate from their hatching grounds till crops elsewhere are saved. Grain and grass look better than ever before; copious rains have fallen within the past two weeks, and the weather has been altogether unusually favorable. May the good prospects not be blighted. The people of Sierra Valley need and deserve all that can be harvested.

Singers, Attention.

Those who receive invitations to join the Fourth of July chorus are requested to meet at R. H. Lindsay's house next Monday evening at 7:30 p. m. It is proposed by the committee of arrangements to make that a feature and they are desirous of getting at least fifty voices to assist in the exercises.

NOTICE.

The Fourth of July Committee of Arrangements are requested to meet at Judge Young's office to-morrow (Saturday) night at 6:30 o'clock sharp. W. A. WALKER, Chairman.

INDEPENDENCE DAY.

Great Preparations Being Made to Receive Our Guests from Virginia, Carson and Elsewhere. Virginia has abandoned the idea of celebrating the Fourth, and the people are coming to Reno on that day. The First Battalion N. S. M. and a section of Battery A will be here. Reno must make preparations to entertain a large number from abroad. The programme for the forenoon is well arranged, and the time of visitors can be very pleasantly passed. In the afternoon the entertainment at the Fair grounds will be very interesting. The races, brass band contest, californian parade, ladies' tournament, etc., will be well managed, and an interesting feature in the day's sport. Mr. Jose, who has matters at the track in charge, is working day and night to make the Fair ground programme worthy of attention. He has engaged two bands of music and has his arrangements very nearly completed. Let us all take an interest in making the celebration a success in every particular. The Reno Guard are working hard to get ready in time to pay visiting companies proper attention, and much is depending upon them. The boys are equal to the occasion, however, and will show them that Reno is a pretty good town to spend Independence Day in.

THE FIRST STEP.

Ores to be Brought From the South for Reduction in Reno.

Cars are now being prepared at Carson for conveying ore from the Mount Fatosi mine at Candelaria, to the English mill in Reno for reduction. This is the initiative of the great business which will one day center in Reno from all the mineral sections north, south and east if the germ is properly cultivated. Instead of a few tons daily, there will be thousands. The advantages for economically running reduction works are incomparable, and sooner or later Reno will become the Swanson of America. If it will pay to bring a small quantity of ore here for reduction, it will pay proportionally better to bring larger quantities.

The Carson & Colorado railroad is getting into a country rich in minerals, where there is little wood at hand and less water, and the ores will be taken somewhere for reduction. No place offers such facilities as Reno possesses, and, therefore, if the people are wide awake, the town may be blessed with a tide of prosperity not enjoyed by any other on the coast.

Demand for Labor.

Farmers in Sierra Valley are complaining of a scarcity of laborers in that locality. They are ready to commence cutting their hay, but cannot find men to do the work. Those who are out of employment would do well to go there. The valley is swarming with grasshoppers, but as yet the little pests have done no particular damage. Unless they attack the grain fields the farmers have nothing to fear. This season, from present appearances, will be one of the most prosperous the good people of that section have ever enjoyed.

BIG ORE from Luning.

A considerable quantity of ore from Luning, Garfield District, goes through Reno daily for the Melrose Smelting Works in Alameda county, Cal. An agent of the reduction works is located at Luning for the purpose of purchasing ore from prospectors according to its assay value, paying cash for all deliveries. This is a great advantage to miners, as it enables them to realize enough to "keep the pot boiling" so that they can prosecute the work of prospecting.

Machine Shops.

The Central Pacific Railroad Company have decided to remove their machine shops from the present location at Wadsworth. The site for rebuilding has not yet been selected. They will quite likely select a site on the west side of the Truckee river, opposite their present location. Should the company decide, however, not to build on that site they will be removed some distance, either east or west, and it is possible that Reno may be the favored locality.

A Pleasant Tour.

Professor Ring, of our public school, will commence his yearly tour through the mountains next week, starting from Carson and going south through Mono County, where he will strike into the Sierra Nevada. If he will go up Mill Creek Canyon to Tioga he will see some of the grandest sights in the world. From Tioga to Yosemite the trail is easy and the surroundings beautiful beyond description.

Soap-Bubble Social.

Remember the social at the Baptist Church this evening, given by the ladies of the W. C. T. U. There will be musical and literary exercises in addition to soap-bubble blowing. Ice cream will be served. Admission 10c. A blow at the pipe will cost 10c, which is cheap enough. You will be called upon to blow your bubbles at 8:30 p. m. Stand in.

Among His Friends.

Charles McLain, who used to "fire" for Jack Hutchinson on the Virginia & Truckee, and since promoted to the cook-deck of an engine on the Carson & Colorado road, is spending a furlough in Reno among his old friends. He will return to duty on the 29th.

PERSONAL.

Daisy Budden is sick with scarlet fever.

Nasby has gone below to have a good time.

Col. C. C. Stevenson, Gold Hill, was in Reno to-day.

D. L. Bliss came up from San Francisco this morning.

Peter Smith and wife of Quincy, Cal., are at the Golden Eagle.

H. L. Ticon, agent for Wells, Fargo in Carson, was in town to-day.

Bishop Whitaker left this morning for tour in Eastern Nevada.

Samuel Lattin has so far recovered as to be able to get down stairs.

J. S. Pelton, of Knowles & Bainbridge, left this morning for Bodie.

E. B. Rail, the Carson hardware merchant, was visiting Reno last night.

Superintendent Everts of the E. and P. railroad company was in Reno last evening.

M. Harrison and family of Milford, Cal., have come into Reno to stay a few weeks.

Bob Buncle, the blacksmith, was blessed with a bouncing boy to-day. Bully for Bob!

F. L. McAllister of Downieville is in Reno. Mr. McAllister is a good short-hand reporter and proposes to make Reno his home.

C. C. Powning returned from San Francisco this morning. He will leave in a day or two for Salt Lake.

M. J. Smith won the gold watch and chain raffled off at Chase & Thye's saloon last evening, by throwing 42.

D. H. Haskell, town-site agent for the C. P., passed Reno this morning for Wadsworth, where he goes to settle the question of locating the shop of the company.

James Morris, for a long time a comical compositor on the Comstock, arrived in Reno from Sacramento this morning. Jimmy will remain here for a while and paddle into the rejuvinating waters of Nevada's holy river.

MUTE WAITERS.

An Honest Old Granger Gets Things Mixed.

An old farmer from Douglas county was in town yesterday, and with his wife visited the Asylum building. As Dawson treated the aged couple with marked attention, taking the trouble to explain everything in connection with the building excepting the large dumb waiter used for elevating provisions from the kitchen to the dining-room, which was forgotten. The old gentleman nearly broke Asa up in business when he said: "I see by the GAZETTE, Mr. Dawson, that you will have mute waiters to carry the grub to the dining-room. I suppose it's a good idea, for too much talkin' is most sure to make 'em crazier 'n they are now." Asa made a stagger at an explanation, when he found it necessary to retire from the room to inflate his lungs. As he passed through the door he heard the wife say: "You old fool! Don't you know what a dumb waiter is? Them things in the passage!" [Meaning the heating pipes.] "Oh, yes," said the old gentleman, "You've learned suthin'; but who told ye? You've had the Iuyanna complaint so long you're as cross as the devil; but don't you call me 'n old fool!"

Closing Exercises.

The closing exercises of the public school took place to-day, and were largely attended. The programme was unusually interesting this year, and the pupils acquitted themselves with credit, showing they had made valuable strides in the path of knowledge during the year last passed. The room in Prof. Ring's department was beautifully decorated with cut flowers furnished by the pupils. The GAZETTE regrets not being able to publish a better account of the proceedings to-day. To morrow's issue will contain a full account of the exercises.

Mayhew's New Stage Line.

It is understood that on the first of July Mayhew's new stage will commence to make regular daily trips between Reno and Quincy, connecting at the Junction House, 25 miles from here, with the Susanville stage, and with the Greenville stage at Beck worth, 42 miles from Reno. The route of one driver will be from Reno to the Junction and back, the second from the latter place to Mohawk and back, and the third from Mohawk to Quincy and back. Fine, new Concord wagons will be used—roomy and easy to ride in.

Casino.

A match game of casino will be played at the Lake-House billiard parlors on the Fourth of July for \$100 aside, between a prominent politician and a Washoe county official. May the best man win.

Wool.

E. A. Richardson came in this morning from Surprise Valley with 50 sacks of wool. The wool is consigned to a San Francisco firm.

Contractors, Attention.

The Boca people are to have a town hall and want bids for its construction. See notice in another column.

For biliousness try Compound Sage Powder, for sale by all druggists.

San Francisco, Cal.

Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM

the effects of youthful follies or indolence, or do not know what to do about them, the greatest boon ever aid at the site of suffering humanity. DR. SPINNEY will guarantee to forfeit \$200 for every case of Seminal Weakness or private disease of any kind to a character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and six

who are troubled with too frequent evasions of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the patient, deposits a large amount will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. There are many who are greatly distressed by the effects of this disease, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the general nervous organs.

Open Hours 10 to 12 and 6 to 8. Sundays

from 10 to 11 a.m. Consultation Free.

P. S. For private diseases of short stand

ing a full course of medicines sufficient for a cure will be given. Address to Dr. SPINNEY, 11 Kearney Street, San Francisco. Jan 2d-a-w
